

VMS / SG APP Update (240122)

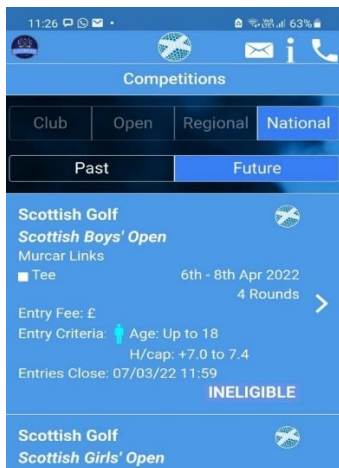

- **General Play Scores**

Please note, do not attempt a General Play score while the gent's course is shortened. We have made it un-measurable on our system, however we must also get Edinburgh Leisure to do the same on their system to prevent course being available for selection (this is in hand) we will let members know when course is back to full length.

In meantime any GP scores entered inadvertently while the course is shortened will be deleted.

- **Problem following the System Clean-up**

Some members may have a problem when accessing the "Comps" section in the SG App. In that they are unable to access Club, Open or Regional (see screenshot below).

This affected some players who may have been using the App while Scottish Golf ran a clean-up of the Scottish Golf system on Tuesday.

SG have supplied the fix which should get you back fully into the system if ever you experience this.

This fix was emailed to all members from the secretary on Friday afternoon (21st Jan)

- **Unverified Cards**

As per recent emails sent out. Unverified Cards (ie unsigned on the App) cannot be accepted for Lochend competitions.

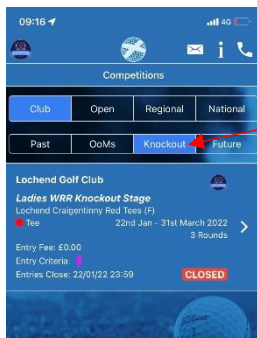

Any unverified cards are now treated just like any unsigned cards and will be DQ'd
If you have a technical problem which prevents scoring or signing on the App please

complete a scorecard and send a photo to tournaments@lochendgolfclub.co.uk

Do not leave the score unverified (Unsigned) or discarded in any case.

- **New Section "Knockout"**

All future knockout competitions can be accessed via "Comps" then "Knockout"

For further information and any enquiries send email to tournaments@lochendgolfclub.co.uk
